

# Slide

Jake Bugg

I've been thinking about the way the world turns  
And my stomach churns  
When it finally hits me out of the sky  
I knew this day would come, I'm on the front line Oh, don't know how to take it in is love just  
suffering?  
Cause I can see where the chapter ends  
I've got autumn leaves And heartbreak dreams inside, inside  
'Cause you and me  
On this frozen sea we slide, slide  
I wait all on my own like a flower in the snow  
With just my shadow following me out into the cold  
Where I walk past the trees to look for my love  
Oh and it's got me wondering is love just suffering?  
'Cause I can see where the chapter ends  
I've got autumn leaves  
And heartbreak dreams inside, inside  
'Cause you and me  
On this frozen sea we slide, slide, slide, slide
