

# Beautiful Life (feat. Cindy Alma)

[Armin van Buuren](#)

Some people keep wondering  
Some people run without knowing  
Some people never found the answer  
The answer Come and step into the light  
Let the beat into your heart out I am falling now into this dream  
Let the music guiding me  
'Cause now I feel everything for the first time  
It's such a beautiful, beautiful life  
When every day is made of you and I  
Oh oh  
Just close your eyes  
And we could dance tonight forever Dance tonight forever Some people keep wondering  
Some people long without knowing  
Some people never found the answer  
The answer  
I'm falling now into this dream  
Let the music guiding me  
'Cause now I feel everything for the first time And we could dance tonight forever
