Need Ur Luv

[Charli XCX](#)

I need your love,
I need it even when it hurts me
I won't give up
I won't give up so come and get meBoy, you really messed around
Put me 6 feet underground
Always kick me when I'm down
But I'm still driving through your town
Try to fake it
I can't take it
Boy, you trapped my heart
I can't shake it
Bout' to break into a hundred millon parts
I need your love,
I need it even when it hurts me
I won't give up
I won't give up so come and get meI need your love,
I need it even when it hurts me
I won't give up
I won't give up so come and get meI wish that you could wear my crown
And feel the weight I'm feelin' now
But I can't help but say your name
It's lightning when you're in my veins
Try to fake it
I can't take it
Boy, you trapped my heart
I can't shake it
Bout' to break into a hundred millon parts
I need your love,
I need it even when it hurts me
I won't give up
I won't give up so come and get meBoy, you really broke my heart
Took my love and tore it up
But I'm coming back for you
Coming clean, out of the blue
All the things you did to me
I forgive them quietly
But I will never forget
Still I end up in your bed
(I need your love)
But I don't want it
(I need it even when it hurts me)
You really hurt me, baby

(I won't give up)
No, I'm givin' up
(I won't give up so come and get me)
Don'tcha come and get me, baby
(I need your love)
But I don't want it
(I need it even when it hurts me)
You really hurt me, baby
(I won't give up)
No, I'm givin' up
(I won't give up so come and get me)
Don'tcha, don'tcha come and get me, baby
Don'tcha come and get me, baby
