

# nothing That's New

## Chumbawamba

Same seven notes and some slag poet's quotes  
Stick them together with glue  
You can mix a fine cocktail from memories  
And pretend what you're drinking is new  
But there's nothing that's new under heaven

(Chorus)

There's nothing that hasn't been done  
Pour me another double cliché  
You can't write a song that's never been sung  
Everyone's stealing from someone  
Burglars get burgled as well  
There's nothing that's new under heaven  
There's nothing unique over hell  
There's nothing that's new under heaven

(Repeat chorus)

You can't write a song that's never been sung  
You can't write a song that's never been sung
