

# Honeybear

## Yeah Yeah Yeahs

[Intro]

Turn yourself around  
You weren't invited  
Turn yourself around  
You weren't invited  
Good, good things  
Happen in bad towns  
Good, good things  
Happen in bad towns

[Hook]

Run away, run away, you want it  
Run away, run away, you want it  
Run away, any way you want it  
Run away, run away, you want it

[Verse 1]

What, what did you do to your back?  
Kept soft thoughts, cut lips, can't get 'em back  
Junk, jump off, too much talk  
Old hope breeds  
Cold needs  
Undress old keys

[Hook]

Run away, run away, you want it  
Run away, run away, you want it  
Run away, any way you want it  
Run away, run away, you want it

[Bridge]

Gone, all alone  
I've got a call from the bear  
Gonna take all his honey, honey

Gone, all alone  
I've got a call from the bear  
Gonna take all his honey, honey

Gone, all alone

I've got a call from the bear  
Gonna take all his honey, honey

Gone, all alone  
I've got a call from the bear  
Gonna take all his honey, honey

[Hook]  
Run away, run away, you want it  
Run away, run away, you want it  
Run away, any way you want it  
Run away, run away, you want it

What, what, what, what
