

I Don't Even Know Why Though

Alina Baraz

You know what to say on my way out
Hit me with the hate, been a while
Now I'm going straight through the fire, fire
I don't even know why though
Get me on a wave then you fade out
Hit me with the light, got me hired
I should get away from you, I know, I know
I don't even know why though High hopes, I fall for the cycle
High low, I'm on on a spiral
Love me, why dope me then leave me
I don't (I don't even know why though) I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though
I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though Maybe it's the love that you show me
Make my body feel like it's holy
(Feel too good to say you hurt too much, too late...)
You're just what I need (I don't even know why though) High hopes, I fall for the cycle
High low, I'm on on a spiral
Love me, why dope me then leave me
I don't (I don't even know why though) I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though
I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though I don't even know why though I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though I just want to put my weight on you
Switch it, smoke it, ima sway on you
No one shootin', ima wait on you
I don't even know why though I don't even know why though
