

# Find You (feat. Matthew Koma & Miriam Bryant)

[Zedd](#)

Silent love is calling faith  
To shatter me through your hallways  
Into echoes you can feel  
And rehearse the way you heal Make them dance  
Just like you  
'Cause you make me move  
Yeah you always make me go I'll run away with your foot steps  
I'll build a city that dreams for two  
And if you lose yourself  
I will find you High on words  
We almost used  
We're fireworks with a wet fuse  
Flying planes with paper wheels  
To the same Achilles heels  
Make them dance  
Just like you  
'Cause you make me move  
Yeah you always make me go I'll run away with your foot steps  
I'll build a city that dreams for two  
And if you lose yourself  
I will find you (Yeah you always make me go) Open up your skies  
Turn up your night  
To the speed of life  
Turn up your night  
Put your love in lights  
Turn up your night  
I will find you  
Make them dance  
Just like you  
'Cause you make me move  
Yeah you always make me go (Yeah you always make me go) I'll run away with your foot steps  
I'll build a city that dreams for two  
And if you lose yourself  
I will find you Turn up your night  
(Go go go go)  
Turn up your night  
Turn up your night  
I will find you Make them dance  
Just like you  
'Cause you make me move

Yeah you always make me go
