

# Castaway

## 5 Seconds of Summer

Young love, close the chapter, there's no "ever after"  
Fell fast, ended faster, yeah  
Late night conversations, led to complications  
Now my heart is in my hands  
Cause you walked out and left me stranded  
Nothing left but picture frames And I just keep on asking myself  
How'd we drift so far away from where we left off yesterday?  
I'm lonely like a castaway Heartbreak that I can't escape, a sinking ship I'll never save  
I'm lonely like a castaway  
All your screaming whispers, slip right through my fingers  
But these memories linger on  
Eyes closed, all I see is good times disappearing  
And I'm trying to hold on  
Cause you walked out and left me stranded  
Nothing left but picture frames  
I just keep on asking myself  
How'd we drift so far away from where we left off yesterday?  
I'm lonely like a castaway Heartbreak that I can't escape, a sinking ship I'll never save (never  
save)  
I'm lonely like a castaway  
Castaway, castaway  
(Ohhh, Ohhh)  
(Castaway)  
(Ohh, Ohh)  
(Castaway)  
How'd we drift so far away from where we left off yesterday?  
I'm lonely like a castaway  
How'd we drift so far away from where we left off yesterday? (yesterday)  
I'm lonely like a castaway  
Heartbreak that I can't escape, a sinking ship I'll never save  
I'm lonely like a castaway  
(Ohhh, Ohhh)  
(Castaway)  
(Ohh, Ohh)  
(Castaway)
