

# Oughta Know That

Jon Pardi

Anybody else find themselves  
In a shoulda done this, shoulda done that'?  
Try to do the best you can  
'Cause you wanna be good but you love to be bad  
Your stress relief comes with the need  
To kick the work week's ass  
If you're feeling this then catch a buzz  
And go on and raise your glass There's always one more beer you gotta drink  
One more girl you gotta meet  
One more song on the jukebox  
Spending my money like it don't stop  
Could blame it all on my roots  
My honky tonk attitude  
I'm feeling this temptation in my current situation  
But morning's gonna come, gonna be early  
Gotta go to work, gonna get dirty  
Shoulda stayed in, instead I went out  
But I oughta know that by now  
Had me a girl but it went south  
Whatever was working didn't work out  
It could've been my rambling ways  
My rowdy friends, hell, I can't say  
Ain't got time for slowing down  
I'm shifting gears and heading out  
A good time's calling my name  
So just get outta my way, yeah One more beer you gotta drink  
One more girl you gotta meet  
One more song on the jukebox  
Spending my money like it don't stop  
Could blame it all on my roots  
My honky tonk attitude  
I'm feeling this temptation in my current situation  
But morning's gonna come, gonna be early  
Gotta go to work, gonna get dirty  
Shoulda stayed in, instead I went out  
But I oughta know that by now  
Some day I'm gonna learn  
But it ain't gonna be tonight, uh One more beer you gotta drink  
One more girl you gotta meet  
One more song on the jukebox  
Spending my money like it don't stop  
Could blame it all on my roots

My honky tonk attitude  
I'm feeling this temptation in my current situation  
But morning's gonna come, gonna be early  
Gotta go to work, gonna get dirty  
Shoulda stayed in, instead I went out  
But I oughta know that by now I oughta know that by now, yeah  
Woo!
