

Til It's Over

Old Dominion

Hey, you don't have to stay
you don't have to say anything that you don't wanna say-ay
hey, you don't have to go
We can take it slow-oh
Or we can move it alone, move it along
We can keep it on the couch and keep the lights on
Naked makin' out, or keep our clothes on
Don't worry 'bout where it's going
if it dead ends, or if it's headed...
Up the stairs or down the block
If it last forever until 1 o'clock
It is what it is 'til it was what it was let it do what it does 'til it's over
If it's right then it's right if it's wrong then it's wrong let's keep playing the song 'til it's over
If it's love if it ain't if it's only the drinks and it just hangs around 'til we're sober
It is what it is 'til it was what it was let it do what it does 'til it's over
