

# Sunlight

## Lane 8

I've been in a waste of space  
Caught in, constant  
Crystal conversations shake  
Shatter and your lips move  
Itâ€™...isâ€™...a reckoning?  
Or â€™...habit hard to shake?  
Keep it togetherâ€™...now  
Cause I know we're getting

Close to something, I know  
Can we let go  
Close to something, I know  
Can we let go

I've been locked up way too tight  
Holding onto  
Pictures of another life  
A frozen frame of time  
If you could melt away  
I'd gladly let you slide  
Keep it together now  
Cause I know we're getting

Close to something, I know  
Can we let go  
And feel it again  
Wake me up tonight  
Till the sunlight  
Close to something, I know  
Can we let go  
And feel it again  
Wake me up tonight  
Till the sunlight  
And feel it again

Feel it again

Close to something, I know  
Can we let go  
And feel it again

Wake me up tonight  
Till the sunlight  
Close to something, I know  
Can we let go  
And feel it again  
Wake me up tonight  
Till the sunlight  
And feel it again  
  
Feel it again
