

Burgundy

Rence

Swimming through my dreams
Tearing at the seams
You know what I mean
(You know what I mean)
Only for the green
I feel like a machine
Is this really me?
Oh, I'm supposed to be

But I wake up
And I gotta get together
Imma go get us what it's always on my schedule
Find me in my temple
Working on my mental
Loving where I'm going but the change is looking dreadful

Guess that's why I'm feeling sadness
Let go shit like a magnet
I can feel it weighin' on me
Pullin' on my fucking fabric
You know what shit is not elastic
Next time ask before you grab it

I can I can feel it
I can I can I can feel it feel it
I can I can feel it (woah)
I can I can feel it
I can I can feel it
I can I can feel it feel it
I can I can feel it (woah)
I can I can
I can I can feel it weighin'
I can I can I can
I can I can feel it weighin'

Guess that's why I'm feeling sadness
Let go shit like a magnet
I can feel it weighin' on me
Pullin' on my fucking fabric
You know what shit is not elastic (I can I can feel it weighin')

Next time ask before you grab it
I can feel it
I can I can feel it

[Guitar Instrumental]

I can I can feel it
I can I can I can feel it feel it
I can I can feel it (woah)
I can I can feel it
I can I can feel it weighin'
I can I can (woah)
I can I can feel it weighin'
