

Until We Meet Again

Nick Jonas

Wish I could reach you through the distance
Show you my heart and all that I'm feeling
Lord I can't preach, but I know something's missing
No way to fly back to the beginning
So until we meet again
I'mma keep smile smile smile smiling
We could be miles apart
But you know I'm never too far
My friend
Until we meet again
On the from lines of facing tomorrow
No one said faith is something you borrow
Oh then there's no place for living in that sorrow
Leave it to kings and no one will follow
So until we meet again
I'mma keep smile smile smile smiling
We could be miles apart
But you know I'm never too far
My friend
Until we meet again
There may be times that it seems like it's impossible
But every time, yeah I find my strength in you
There may be times that it feels like you just hit the wall
There may be times
There may be times
So until we meet again
I'mma keep smile smile smile smiling
We could be miles apart
But you know I'm never too far
My friend
Until we meet again
So until we meet again
I'mma keep smile smile smile smiling
We could be miles apart
But you know I'm never too far
My friend
Until we meet again
My friend
Until we meet again
