

# Cowboy Hat

Jon Pardi

We've been out all night  
Tearing up this town  
It's time to bring it all home  
Start the second round  
Cause when you get turned on  
I can't turn you down  
You stop to slip it off, grab my hand And start dancing around the bedroom  
Moonlight through the window, country on the radio  
Silhouette, beautiful come a little closer  
Give me some of that  
Baby, you look so good  
In nothing but my cowboy hat  
Nothing but my cowboy hat  
We should've just stayed in  
Left that truck in the drive  
The way you're looking now  
Gonna be up all night  
Love how you throw it down  
Over those angel eyes  
Baby, keep on driving me wild When you're dancing around the bedroom  
Moonlight through the window, country on the radio  
Silhouette, beautiful come a little closer  
Give me some of that  
Baby, you look so good  
In nothing but my cowboy hat  
Nothing but my cowboy hat Can't resist you  
And [?]  
There's one thing you don't have to take off  
When you're dancing around the bedroom  
Moonlight through the window, country on the radio  
Silhouette, beautiful come a little closer  
Give me some of that  
Baby, you look so good  
In nothing but my cowboy hat  
Nothing but my cowboy hat  
So come a little closer  
Give me some of that  
Baby, you look so good  
In nothing but my cowboy hat  
Nothing but my cowboy hat
