

Florida With a Girl

Ryan Hurd

[Intro]

Florida with a girl
(Florida with a girl)

[Verse 1]

Cross that Alabama state line
Straight shot south 20 more miles
Same ten songs playing on repeat
Hot sun only getting hotter
Young love next to the water
Still feel white sand on my feet

[Chorus]

It was hearts on fire, it was out all night under 38 stars
It was high tide moon, it was "I love you" whispered in the dark
It was warm cheap beer chasing first kiss fear
When the sun goes down
Wasn't just one week, wasn't just some beach in a spring break town
It was Florida with a girl
It was Florida with a girl

[Verse 2]

That salt margarita
Her kiss mixed with tequila
Never say goodnight, never say goodbye
Even though it's over would you go back if you could
'Cause when I think about it, girl, I swear to god I would
Was the highest of the high, was the freedom in your eyes
But it was so much more than that, yeah

[Chorus]

It was hearts on fire, it was out all night under 38 stars
It was high tide moon, it was "I love you" whispered in the dark
It was warm cheap beer chasing first kiss fear
When the sun goes down
Wasn't just one week, wasn't just some beach in a spring break town

[Bridge]

It was Florida with a girl you loved
That's something that you can't get back

Every moment is a memory
First time you ever felt like that
It was Florida with a girl

[Chorus]

It was hearts on fire, it was out all night under 38 stars
It was high tide moon, it was "I love you" whispered in the dark
It was warm cheap beer chasing first kiss fear
When the sun goes down
Wasn't just one week, wasn't just some beach in a spring break town

[Outro]

It was Florida with a girl you loved
That's something that you can't get back
Every moment is a memory
First time you ever felt like that
It was Florida with a girl
