

These Are the Times (feat. JRM)

[Martin Garrix](#)

When life gets you down
We find a way to make it better
When days turn into dark
That's when we light it up together These are the times that we've been praying for
These are the moments that we will not forget
This is the life that we've been waiting for
I wouldn't change it for nothing These are the times that we've been praying for
These are the moments that we will not forget
This is the life that we've been waiting for
I wouldn't change it for nothing
Now that it's clear
We made it through the rain together
It feels like home so why don't we just stay forever These are the times that we've been praying
for
These are the moments that we will not forget
This is the life that we've been waiting for
I wouldn't change it for nothing
These are the times that we've been praying for
These are the moments that we will not forget
This is the life that we've been waiting for
I wouldn't change it for nothing
