

# Stay There

Andy Grammer

[Verse 1]

Easy to get to or hard to stay  
The magnets that pull us also push us away  
The closer that we get, the more that's at stake  
Whole lot of road ahead, but we got that stamina, babe

[Chorus]

Anyone could hit and run  
Somebody you could hold, baby, that's rare  
Anyone could fall in love  
How many do you know that could stay there?  
Stay there (Ooh, ooh)  
Stay there (Ooh, ooh, ooh)

[Verse 2]

Something forever is something naive  
And we come together only to leave  
'Cause mama couldn't do it, no, daddy couldn't do it, no  
I think we could do it though, yeah, yeah, yeah  
Nothing is impossible, don't wanna be cynical  
We could be unmovable, yeah, yeah, yeah

[Chorus]

Anyone could hit and run  
Somebody you could hold, baby, that's rare  
Anyone could fall in love  
How many do you know that could stay there?  
Stay there (Ooh, ooh)  
Stay there (Ooh, ooh)  
Everybody running, running, running  
But I ain't going nowhere  
I'ma stay there (Ooh, ooh)  
Stay there

[Chorus]

Anyone could hit and run  
Somebody you could hold, baby, that's rare  
Anyone could fall in love  
How many do you know that could stay there?  
Stay there (Ooh, ooh)

Stay there (Ooh, ooh)  
Everybody running, running, running  
But I ain't going nowhere  
I'ma stay there (Ooh, ooh, ooh)
