

Bright Lights (Sam Feldt Remix)

[HAEVN](#)

Your words are high and running through a tired mind
A howling wind surrounds you
I'm trying to illuminate a clouded heart I'm gonna find the strength to stay Feel we're gonna
break out
At the last step now
Feel we're gonna break out
I really wanna see your face, and I see Bright bright lights, bright lights to guide me
Bright bright lights, bright lights to guide me home
Bright bright lights, bright lights to guide me
Bright bright lights, bright lights to guide me home
Your hands are high and floating through a darkened sky
So many eyes around you
The distant sounds as neon sparks light up my heart
I'm gonna find a brighter day Feel we're gonna break out
I really wanna see your face, and I see Bright bright lights, bright lights to guide me
Bright bright lights, bright lights to guide me home
Bright bright lights, bright lights to guide me
Bright bright lights, bright lights to guide me home You shut your heart and shut my door
You shut your heart
When I say hold me, when I say hold me, when I see Bright bright lights, bright lights to guide
me
Bright bright lights, bright lights to guide me home
Bright bright lights, bright lights to guide me
Bright bright lights, bright lights to guide me home
Bright lights to guide
Bright lights to guide
Bright lights to guide
Bright lights to guide me home
