

Could've Had Everything

P!nk

[Verse 1]

Heaven's sake everyone
For standing in my way
For ruining all my fun
You say you're doing it for my sake
I thought I did my best
It was nearly good enough
But all that effort, I guess
It didn't add up to very much

[Pre-Chorus]

It hurts me when you call
I hear the way you are thinking
I could've so easily had it all

[Chorus]

I could've have had everything
I could've have had everything
This perfect life I'm in
Screwing myself over
I could've had everything
I should've had everything
You almost got me thinking
I'm screwing myself over
Screwing myself over

[Verse 2]

They say that madness is doin' a thing the same way
You hope it's gonna turn out different
But you're doing it anyway
I guess it's what I did with you
But at least I have a reason
So my apologies, won't go to anyone

[Pre-Chorus]

It hurts me when you say
That all my close mates hate me
I really thought I had it all

[Chorus]

I could've had everything
I could've had everything
It's the perfect life I'm in
Screwing myself over
I could've have had everything
I should've had everything
You almost got me thinking
I'm screwing myself over

[Bridge]

I coulda, I coulda, I coulda, I coulda, I coulda had everything
I coulda, I coulda, I coulda, I coulda, I coulda had everything
I came so near to thinking I had something
To learn

[Chorus]

I could've had everything
I could've had everything
It's the perfect life I'm in
Screwing myself over
Could've had everything
I should've had everything
You almost got me thinking
I'm screwing myself over
Could've had everything
I should've had everything
It's the perfect life I'm in
Screwing myself over
I could've had everything
I should've had everything
You almost got me thinking
I'm screwing myself over
I'm screwing myself over
