

Love Them a Little

Brett Kissel

[Verse 1]

Little feet

Little toes

Little smile

Little nose

She got me wrapped around her finger

Like no-one ever has

She justâ€™...likeâ€™...her mama

When sheâ€™...holds my hand

I'm looking at anâ€™...angel

And I try to understand

[Chorus]

How could something so small take so much space in your heart

She just started walking

But she tears me all apart

I just pray for time to crawl

As she's walking out my door

Let me love her a little

Till she's not little anymore

[Verse 2]

Little hug

Little laugh

They go by just like that

Little girl is in my arms

Where a baby used to be

Sippy Cups

Teddy Bears

Pony tail in her hair

She changes right before my eyes

And I try to hard to breathe

[Chorus]

How could something so small take so much space in your heart

She just started walking

But she tears me all apart

I just pray for time to crawl

As she's walking out my door

Let me love her a little

Till she's not little anymore

[Verse 3]

They called out in the night
Thunder made them cry
They get right in the middle
Between their mom and I
I look at my wife
Tears fill up my eyes
I feel the baby kickin'
He's gonna be here anyday

[Chorus]

How could something so small take so much space in your heart
He's not even here yet
But he tears my heart apart
I just pray for time to crawl
Till he's walking out my door
Let me love him a little
Till him not little anymore

Let me love them a little
Till there not little anymore
