

Riot (feat. Serj Tankian & Sizzla)

Wyclef Jean

[Intro: Wyclef Jean]

Yo Serj, pass me that lighter

Yeah... yeah, yeah! [Serj] Flowers, smiling through the battlefield! [Verse One: Wyclef Jean]

The break is over man, I'm back with the ink pen

Like Ali bomaye okay I'm on my second wind

Used to roll dice when the luck was on my side man

Four-five-six, walked away with a grand man

Seen many blocks turn to the Twilight Zone

D.A. on the case like Sherlock Holmes

My old high school sweetheart started sniffin a bone

For the right bag she deep throat, deeper than a baritone

I caught you off guard, this verse is unexpected, check it

Like when I rhymed on Big Pun's record, check it

I got a swagger that cut any rapper mind over matter

Lyrical dagger like alcohol I'm bad for your liver

Quiver, shiver body temperature get found in Hudson River

Deliver a message to your miss you won't be comin over

And if you on the street tonight, see that ReFugee logo

We beam around the world like satellite

[Chorus One: Wyclef Jean]

It's them hip-hop boys, turn your radio down

It's the rock 'n roll boys, turn your radio down

It's them reggae boys, turn your radio down

Neighbors mind your business

It's a riot again! The world is getting nervous

So we travel again! Main journey's the unconscious

It's a riot again! The world is getting nervous

And so we travel again! Main journey's the unconscious [Verse Two: Sizzla (Wyclef)]

Come roooooooooock with me~!

I got the music on the block with me

Come chill on the spooooooooot with me

And just laugh in spree

Yeah you're right, we got enough for everyone

So get all your friends and your families and come along

Move to the beat that's all we do we got Jerusalem

Everyday we offer praises like King Solomon

Ain't gon' hurt ye, don't be nervous

I'm your guardian angel, know you purpose

And if I look at you low, if I should make it

Believe me, I leave you, show you how to make it

(Hung up high, in the M-I)

(Double-S-I, S-S-I)

(P-P-I, three-piece tie)
 (Wanna see me die so the heavens they cry)[Chorus Two: Wyclef Jean]
 It's them hip-hop boys, turn your radio down
 It's the rock 'n roll boys, turn your radio down
 It's them reggae boys, turn your radio down
 Neighbors mind your business
 It's a riot! Riot! Riot! Riot!
 From the train to the plane, security check
 From the bridge to the tunnel, security check
 It's a riot again! The world is getting nervous
 So we travel again! Main journey's the unconscious
 It's a riot again! The world is getting nervous
 And so we travel again! Main journey's the unconscious[Verse Three: Wyclef Jean]
 I was down in Texas; drivin wreckless
 Police stop me, axe me for my license (oh yeah)
 Registration so I played him some Elvis
 He let me go, then I lit off the chalice
 I said if things don't change, we headed for the Arma-ged-deon
 And the great dragon with seven head, ten horns, at the Arma-ged-deon
 Listen to the choir children[Verse Four: Serj Tankian]
 The matterings of all matter
 Masters and their extended batters
 Internet intelligence for investments for the natural world
 Their divestments; truth is knowledge
 Although bi-polar if it's attainment is equitable
 Man's mirrors face the flesh but hide the spirit
 in opposite worlds; vision can only be attained universally
 Lamps of varied sizes and shapes carrying different shades
 All having the propensity to illuminate
 Let's ruminate on realization that the means is the end
 The Earth's water is mirroring the stream-of-consciousness
 The dead being reborn as flowers smiling through the battlefields[Wyclef Jean (Serj)]
 It's them hip-hop boys, turn your radio down
 It's the rock 'n roll boys, turn your radio down
 (Flowers, smiling through the battlefield!)[repeat to 21 seconds before the end]
 It's a riot again! The world is getting nervous
 So we travel again! Main journey's the unconscious
 It's a riot again! The world is getting nervous
 And so we travel again! Main journey's the unconscious
