

Not Enough Time (feat. Emma Hewitt)

Cosmic Gate

With their wicked words
They'll try to hold you down
No this is not our fate
The lives in which they are bound
And there is something more
We know it has to be found
I know the world won't wait
The tide is turning around

And there's not enough time
There's not enough time
And there's not enough time
There's not enough time

With all their wicked words
They'll never hold you down
No this is not our fate
The tide is turning around

And there's not enough time
There's not enough time

And there's not enough time

There's not enough time

In the fallout of the wasted in the halflight

I stand before you in the last dance of an old life

Now the cool wind's blowing and we can't stay, but it's

alright

When the night is gone

I will still be here

And there's not enough time

There's not enough time

And there's not enough time

There's not enough time
