

# Take Over Control (Extended) [feat. Eva Simons]

Afrojack

Take Over Control  
AfrojackI want you to take over control  
Take take take take over control  
Plug it in and turn me onLet's go take a ride in your car  
I will take the passenger seat  
Baby, we don't have to go far  
Unless you wanna show  
Me a lovely place out of town  
Where you feel most at ease  
Well you are the one that I like  
Always will beI think it's time to let you know  
Know the way I feel when you take hold  
And You set me free, my body's yours  
It feels the best when you're involvedI want you to take over control  
Plug it in and turn me onMusic##I want you to take over control  
Plug it in and turn me onBaby, baby, can't you see?  
That I'm giving all of me  
So, it's up to you now  
We could let time pass away  
I'll make an excuse to play  
But, it's up to you nowJust wanna fulfill your needs  
While you're taking over me  
So, what do you want now?  
Take a picture, make a show  
Cause nobody has to know  
All the ways that we get down  
I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me onOh, oh whoa oh  
Oh, oh whoa ooh oh  
Plug it in and turn me on

Oh, oh whoa ooh oh  
Plug it in and turn me onI want you to take over control
