

Harder

Keala Settle

Stay with me don't hang up the phone
You listen carefully
I know it feels like you wanna leave
this world can be so lonely
Yeah I've been there too, just like you Right now everything hurts
And it's just gonna get worse, get worse
Both knees hit the cold ground
And you just wanna break down, break down That's when you get up and you fight Harder
It's just you in the dark and a bruised broken heart
But you'll go farther
Through the fire, through the rain, through the tears and the shame
And if you fall down you get up x2
Don't you give in don't give up
Even if you feel like going harder
You're still here don't forget
Take a breath
Fight harder When I was in that place
I'd look in the mirror wishing she could go away
never thought that I would still be here today
i'm still fighting but I'm stronger every step I take along the way Right now everything hurts
And it's just gonna get worse, get worse
Both knees hit the cold ground
And you just wanna break down, break down That's when you get up and you fight Harder
It's just you in the dark and a bruised broken heart
But you'll go farther
Through the fire and the rain, through the tears and the shame
And if you fall down you get up x2
Don't you give in don't give up
Even if you feel like going harder
You're still here don't forget
Take a breath
Fight harder (fight harder)
oh-oh-oh
(fight harder)
oh-oh-oh
(fight harder) ooh fight harder
It's just you in the dark and a bruised broken heart
But you'll go farther
Through the fire, through the rain, through the tears and the shame And if you fall down you get
up x2
Don't you give in don't give up
Even if you feel like going harder

You're still here don't forget Take a breath
Fight harder(fight harder)
oh-oh-oh
(fight harder)
oh-oh-oh
(fight harder)
oh-oh-oh You're still here don't forget
Take a breath
Fight harder
