

# Don't Speak

## Jonas Brothers

I thought I was cool  
But I just looked a fool  
For so long  
Now you're gone  
Now you're gone  
Yeah...Don't speak to me  
Don't speak to me I recall all our fights  
Most of all, all the times  
You would lie in my arms  
Now you're gone  
You're gone  
Yeah  
Don't speak to me  
Don't be my aim There's a lot that you don't notice  
When you read between the lines  
The future's out of focus  
When you're blinded by the light  
It's the hope for all the hopeless  
In the worst of trying times  
I resort to being speechless  
'Cause our love won't survive  
Yeah  
Our love won't survive  
Don't speak a word Don't speak to me  
Don't speak to me  
There's a lot that you don't notice  
When you read between the lines  
The future's out of focus  
When you're blinded by the light  
It's the hope for all the hopeless  
In the worst of trying times  
I resort to being speechless  
'Cause our love won't survive
