

May Our Praise

Leeland

May our praise
Be all that you can hear
From our lives to your ears, Father

Wondrous King
You are clothed in mystery
Your hands set people free
Father
All pain is over
As your love draws us closer
Your grace goes on forever
So we sing
So we sing

Every heart should feel
The depth of your mercy
How beautiful is your healing
Father
And teach us lord
To attract you even more
We just want to be where you are
Be where you are

This is our love song to you
Father our love song to you

We never deserved
This never ending peace
You're a God who protects the weak
So we sing
So we sing
