

# Let Me Know

## Yeah Yeah Yeahs

[Verse 1]

I couldn't see  
I couldn't hear  
It shut me off  
When you were near  
Like a cloud  
A dusty mirror  
It disappears  
You disappear  
All the sudden  
All alone  
I'm calling out  
I'm calling

[Chorus]

Love's gonna let me know  
Like the day you took me home  
We counted every minute left to go  
My love's gonna let you know

[Verse 2]

Time without you drags me down  
It all feels right with you around  
It all feels right with you around  
Like the night we hit the ground  
And all the lightning sent a chill  
Can't forget about you still  
All the sudden, all alone I'm calling out, I'm calling

[Chorus]

Love's gonna let me know  
Like the day you took me home  
We counted every minute left to go  
My love's gonna let you know

[Outro]

I'm calling out, I'm calling [x6]
