

Freesol (feat. Skyler Stonestreet)

Seven Lions

Didn't see a warning
Hits me in the morning
Puts me in the moment, the moment
Didn't find a reason
Hits me in the evening
Hurts me when I breathe in, I breathe in
Feel the way that I do about you
Don't want anything new what I knew
Hits me in the morning (hits me in the morning)
Puts me in the moment
Just look at me now
The sun setting gold
Look at me now
I'm freesol
Look at me now
The sun setting gold
Look at me now
I'm freesol
Look at me now
Look at me now
Didn't see a warning
Hits me in the morning
Puts me in the moment, in the moment
Didn't find a reason
Hits me in the evening
Hurts me when I breathe in, I breathe in
Feel the way that I do about you
Don't want anything new what I knew
Hits me in the morning
Puts me in the moment
Just look at me now
The sun setting gold
Look at me now
I'm freesol
Look at me now
The sun setting gold
Look at me now
I'm freesol
Look at me now
Look at me now
Look at me now
