

Magnolia

Rence

I'm here
Gonna count the
Days or weeks or months or years
Mama told me love before you disappear
So I loved and learned and worked and now I'm here

Oh, it's been a long long long time coming (time coming, time coming)
Oh, and I spent a long long long time running (time running, time running)
I didn't know I was running from myself (from myself)
But I just found out can't get no help from no one else
