

# Death to Everyone But Us

Felix

Knock down the walls I'm coming home  
I'm coming home, I'm home and  
I am better than you remembered  
Knock down the walls, lay down the floor  
I'm very last, so close to here [??]  
So close to him in time [??]  
Spit of alcohol and sit down the floor  
You say that we are nature's friend [??]  
Death to everyone but us  
Death to everyone but us  
And death to everyone who never even loved us  
Death to everyone but us  
Death to everyone but us  
And death to everyone who never even loved us  
And everything that comes out of your mouth is rubbish  
And everything that comes out of your mouth is beautiful  
And your mouth is bigger than my fist clenched together  
And life is quite a bit like a clue [??]  
And I said I would stop being mean  
And I said I would stop being mean  
But it's your vicious tongue the one that goes on  
And goes on, and goes on, and goes on  
Your vicious tongue the one that goes on  
Your vicious tongue the one that goes on  
And goes on, and goes on, and goes on and goes on  
Your vicious tongue the one that goes on  
Death to everyone but us  
Death to everyone but us  
And death to everyone who never even loved us  
Death to everyone but us  
Death to everyone but us  
And death to everyone who never even loved us
