

# Runaway

Sasha Sloan

Strung out in the back of a black car  
No keys, all I got is my credit cards  
And I've been here a million times  
Drive fast with the Beatles in the background  
Tell 'em take the 101 out of this town  
I was never one to say goodbye Every time I fall in love  
I go and fuck it up right when it gets good  
Don't you think it's funny?  
Don't you think it's funny?  
I know I did all the shitty things to you  
I said I never ever would  
Baby, that's so like me  
Baby, that's so like me  
I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special  
I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special  
Strung out in the back of a black car  
I've got a little too good at breaking hearts  
I wonder if I'll ever stop Every time I fall in love  
I go and fuck it up right when it gets good  
Don't you think it's funny?  
Don't you think it's funny?  
I know I did all the shitty things to you  
I said I never ever would  
Baby, that's so like me  
Baby, that's so like me  
I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special  
I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special  
What we had was special I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special

I don't know why I always run away  
I don't know why I always run away  
What we had was special  
I know what we had was special Strung out in the back of a black car  
I've got a little too good at breaking hearts  
I was never one to say goodbye
