

Supplies

Justin Timberlake

[Refrain]

Ain't no need of stopping, girl
There ain't no need of stopping, girl

Yeah, okay[Verse 1]

Met you out on Broadway
On the hottest night in town

We arrived solo

But we were being chasing around
Saw you being caught up by some guy you used to know
Stepped in between the both of y'all
Said, "I'm leaving, do you wanna go?"

[Pre-Chorus]

'Cause

I'll be the light when you can't see
I'll be the wood when you need heat
I'll be the generator, turn me on when you need electricity

Some shit's 'bout to go down

I'll be the one with the level head

The world can end now

Baby, we'll be living in The Walking Dead[Chorus]

'Cause I got supplie-ie-ies

Supplie-ie-ies

I got you, I got supplie-ie-ies

Supplie-ie-ies

[Verse 2]

I don't know if you remember this

But I was out of town

Flew in on a 3 AM just to show up and hear your sounds

The multiple times, stop

Hit the set

You ain't headed that way

I can guarantee you that[Pre-Chorus]

I'll be the light when you can't see

I'll be the wood when you need heat

I'll be the generator, turn me on when you need electricity

Some shit's about to go down

I'll be the one with the level head

The world can end now

Baby, we'll be living in The Walking Dead[Chorus]

'Cause I got supplie-ie-ies

Supplie-ie-ies

I got you, I got supplie-ie-ies

Supplie-ie-ies[Verse 3]
Ain't no need of stopping, girl
Can't nobody top it, girl
Ain't no better option, girl (okay)
Ain't nobody stopping, girl
This here when I drop in, girl
I work, work when I clock in, girl (okay)[Pre-Chorus]
I'll be the light when you can't see
I'll be the wood when you need heat
I'll be the generator, turn me on when you need electricity
Some shit's about to go down
I'll be the one with the level head
The world can end now
Baby, we'll be living in The Walking Dead[Bridge]
Now I wanna know everything
Don't leave a single detail out
I'll get my lighter, just fell out
It makes me a generous lover
Oh, I wanna see everything
So don't leave a single detail out
I want it all on the table
The personal way to--
Wait[Refrain]
Ain't no need of stopping, girl
There ain't no need of stopping, girl
Yeah, okay[Chorus]
'Cause I got supplie-ie-ies
Supplie-ie-ies
I got you, I got supplie-ie-ies
Supplie-ie-ies
