

# In the Dark

Olivia Holt

Can you find me here  
In this dark terrain  
Can you pull me out  
From under Diamonds in the dirt  
Shining through the hurt  
Can you pull them out And hold me close when I'm running away  
Say everything we've been wanting to say  
Take my sky baby light it up  
Oh, take my sky baby light it up  
Tonight I'm yours  
As the shadows break apart  
We show all that we are  
Tonight I'm yours  
And I'm ready to restart  
If you can find my heart in the dark  
In the dark Proof that you can't feel  
Show me this is real  
Tell me that you are listening Try to understand  
Everything I am  
Everything you are And hold me close when I'm running away  
Say everything we've been wanting to say  
Take my sky baby light it up  
Oh, take my sky baby light it up  
Tonight I'm yours  
As the shadows break apart  
We show all that we are  
Tonight I'm yours  
And I'm ready to restart  
If you can find my heart in the dark  
In the dark Le-let me love you  
Le-let me love you down  
Ba-baby love me  
Ba-baby love me down  
Le-let me love you  
Le-let me love you down  
Ba-baby love me  
Baby love me Tonight I'm yours  
As the shadows break apart  
We show all that we are  
Tonight I'm yours  
And I'm ready to restart  
If you can find my heart in the dark Tonight I'm yours

As the shadows break apart  
We show all that we are  
Tonight I'm yours  
And I'm ready to restart  
If you can find my heart in the dark  
In the dark  
In the dark
