

# Smooth Sailing

## Old Dominion

I feel like a beat up back road all full of potholes  
Man, I'm on a hell of a ride  
Doing my best and I can't get arrested  
I can't get time on my side  
Down on my luck and I'm down on my knees  
And I'm down to my last dirty dime  
Red sky morning, it keeps on pouring  
Just like the tears in my eyes I'm looking for smooth sailing  
Feeling the breeze on my back  
Get my blues fading  
My weather and my wheels on track  
Come hell or high water  
The sun's gonna shine  
Might not be tomorrow, but I know I'm gonna find  
Smooth sailing  
Watch me sail away  
The flowers are dying  
My woman is crying herself to sleep every night  
And people try to be nice and they give me advice  
But they ain't got a dog in this fight  
What's left of my faith is a drop in the tank  
Here lately, I've been running on fumes  
But there's a new sun rising on the horizon  
Lord, I hope I get there soon I'm looking for smooth sailing  
Feeling the breeze on my back  
Get my blues fading  
My weather and my wheels on track  
Come hell or high water  
The sun's gonna shine  
Might not be tomorrow but I know I'm gonna find  
Smooth sailing  
I'm looking for smooth sailing  
I could use it, I could use it  
I could use a little tide turn  
I could use it before I lose it  
I could use a little  
I could use a little smooth sailing I'm looking for smooth sailing  
Feeling the breeze on my back  
Get my blues fading  
My weather and my wheels on track  
Come hell or high water  
The sun's gonna shine

Might not be tomorrow but I know I'm gonna find  
Smooth sailing  
I'm looking for smooth sailing  
Watch me sail away
