

Cannibal Resource

Dirty Projectors

[Verse 1]

Look around at everyone
Everyone looks alive and waiting
The wind is up, the stars are out
The sun is calm, the light is fading
But we are

[Chorus]

Still counting on cannibal resource
OK, open your eyes
I think you're more than a terrified witness
Behind the arbitrary line

[Verse 2]

Can it ask a question?
Can it sing a melody?
Can it be interpreted?
But is it more than what the eye can see?
Maybe not

[Chorus]

Still counting on cannibal resource
OK, open your eyes
I think you're more than a terrified witness
Behind the arbitrary line

[Bridge]

I'm cryin'
I'm cryin'

[Chorus]

Still counting on cannibal resource
OK, open your eyes
I think you're more than a terrified witness
Behind the arbitrary line
The arbitrary line
The arbitrary line

The arbitrary line
