

# Supernova (feat. Charlotte OC & Dark Heart)

Jonas Blue

Cold eyes, blank stare  
Faces on a bus, but I just don't care  
True lies buzzing in my ear  
Spending all my money, but I won't buy fear  
'Cause I'm looking for a love I can find out here  
'Cause I'm living through a screen but the feel ain't there  
Forget what the teardrops told ya  
We gon' be alright, we gon' be alright, yeah  
Shine bright like the fires that burned ya  
We gon' be alright, we gon' be alright  
We just keep on holding, holding  
Never in control, yeah  
Riding, rollin', devil on your shoulder  
Don't cry little supernova  
We gon' be alright, we gon' be alright, yeah  
Same life, I'm done  
Chasing pretty things never feels like fun  
No ride, I can't run  
Waitin' for a train, but it never comes  
'Cause I'm looking for a love I can find out here  
'Cause I'm living through a screen but the feel ain't there  
Forget what the teardrops told ya  
We gon' be alright, we gon' be alright, yeah  
Shine bright like the fires that burned ya  
We gon' be alright, we gon' be alright  
We just keep on holding, holding  
Never in control, yeah  
Riding, rollin', devil on your shoulder  
Don't cry little supernova  
We gon' be alright, we gon' be alright, yeah
