

# Leave Me Alone

NF

Hey!

Leave me alone (Leave me alone)Panic-stricken, handle business, not a joke, yeah  
Manners missin', travel different, no control, yeah  
Time to listen, time to zip it, keep it closed  
My description, highly gifted, take some notes, yeah  
Lack of interest, why'd you visit? Hit the road, yeah  
I'm kinda twisted, so keep your distance, be a ghost  
Yeah, see I'm inventive, but quite the menace, you ain't know?  
Well then I'm offended, let's jog your memories, here we go, yeah  
I went from nobody to kinda famous  
Hide my plaques inside the closet, I just can't explain it  
My wife, she tells me that she's proud and thinks that I should hang 'em  
But I just leave 'em on the ground right next to my self-hatred  
Yeah, yeah, mental health, where's my mental health?  
Diagnosed with OCD, what does that mean? Well, gather 'round  
That means I obsessively obsess on things I think about  
That means I might take a normal thought and think it's so profound (Leave me alone)  
Ruminating, filled balloons full of doubts  
Do the same things, if I don't, I'm overwhelmed (Leave me alone)  
Thoughts are pacing, they go 'round and 'round and 'round  
It's so draining, let's move onto something else, fine (Leave me alone)  
I'm in the game, but they don't even know it  
Like I'm undercover and don't want to blow it  
I come out of nowhere, they don't even notice  
The flow is so cold, you would think it was snowing (Leave me alone)  
I'm under the weather, but wind isn't blowin'  
I got an umbrella for difficult moments  
You got to admit it, I'm very devoted  
I'm out in the ring, but they don't always help me, so I...  
Hold up my balloons and cover up my face  
I can feel them weighing on me every day  
I should let 'em go and watch 'em float away  
But I'm scared if I do, then I'll be more afraid (More afraid)  
Tell them how I feel, but they don't want to change (They don't wanna change)  
Tell them how I feel, but they remain the same  
Loosen up my grip, they say that's not okay  
Quiet, quiet, quiet, quiet, quiet, ayy, leave me alone!Ayy, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
Woo, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
I hate when they debate if we're underrated  
We're so overlooked that they're looking over our numbers, Nathan (Leave me alone)

We don't do enough interviews or go out in public lately  
We don't post enough on our socials  
To keep the buzz from fading (Leave me alone)  
Let it fade, yeah, let it fade  
Once it's decimated, then you drop a song out of nowhere  
And all the fans embrace it (Leave me alone)  
Then the buzz will surface again, it's part of my operation  
I don't need advice from my doubts right now  
End of conversation (Leave me alone)  
Shut your mouth, yeah, shut your mouth  
Better tone it down, close it now  
If you make a sound, I'ma change your dial (Leave me alone)  
Funny how they be acting loud, comin' on it now  
It's floating 'round  
Man, the kid is wild, pretty wild, true (Leave me alone)  
I'm kinda phony but don't really show it  
I keep it together, but have a disorder  
I go to my room and I sit in my corner  
And talk to myself in a language that's foreign (Leave me alone)  
I think of a rhyme and I have to record it  
But know if I don't, I'll wake up in the morning  
And question my life again, always avoiding  
I hate to be different, but hate to be normal, so I... (Leave me alone) Hold up my balloons and  
cover up my face  
I can feel them weighing on me every day  
I should let 'em go and watch 'em float away  
But I'm scared if I do, then I'll be more afraid  
Tell them how I feel, but they don't want to change  
Tell them how I feel, but they remain the same  
Loosen up my grip, they say that's not okay  
Quiet, quiet, quiet, quiet, quiet, ayy, leave me alone! Ayy, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
Woo, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone! Remember back in "NO NAME," I  
said fame called?  
Told you I hung up, it kinda felt wrong (Wrong, leave me alone)  
Finally called him back, we didn't talk long  
He asked me how I'd been, I sent him this song (Wrong, Leave me alone)  
Yeah, think he took offense, he kinda seemed off  
I texted him that night to ask what he thought (Leave me alone, wrong)  
It took a couple days to get a response  
But once I finally did, he said this song sucks (Leave me alone)  
Here are the symptoms, couldn't miss 'em, wrestle with 'em  
Then I penny flip 'em, bounce 'em back up nowhere, you should get some  
Who you dissin'? Move the switch and don't come in the kitchen  
You should listen, cookin' records for my hands are blistering  
So persistent, don't forget this, hold the tension, soul is bending  
No pretending, open ended, low percentage, so demented (Leave me alone)  
Whole consensus, flow tremendous, no apprentice, no incentive

Show intensive, so possessive, tone aggressive, watch your step when I (Leave me alone) Hold  
up my balloons and cover up my face (Up my face)  
I can feel them weighing on me every day (Yeah, every day)  
I should let 'em go and watch them float away (Yeah, float away)  
But I'm scared if I do then I'll be more afraid  
Leave me alone (Yeah), leave me alone (Yeah, yeah, yeah)  
Leave me alone, leave me alone (Yeah, yeah, yeah)  
Leave me alone, leave me alone (Yeah, leave me alone)  
Leave me alone, leave me alone, ayy, leave me alone! Ayy, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
Woo, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
Ayy, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Yeah), leave me alone!  
Woo, yeah  
Quiet, quiet, quiet, quiet, quiet, ayy (Leave me alone)
