

Free Fall (feat. RUNN)

Illenium

I couldn't tell him
I couldn't breathe
I never knew that I was ripping at the seams
I couldn't hold back
I didn't try
One look and you're right between my lines
It's like you're diving into my heart
I'm floating off the ground
When you pull me into your arms
I go into a free fall
I'm spinning and I can't stop
I lose my breath, when you say my name
I go into a free fall
I'm spinning and I can't stop
I lose myself and I'm not, not the same
When we're in the free fall
When we're in the free fall
Never felt like, this before
Got the thrill and now I'm only one more
Scared to look down
But gravity, can't compete, with all the light you give in me
It's like you're diving into my heart
I'm floating off the ground
When you pull me into your arms
I go into a free fall
I'm spinning and I can't stop
I lose myself and I'm not, not the same
I go into a free fall
I'm spinning and I can't stop
I lose myself and I'm not, not the same
When we're in the free fall
Free fall
I go into a free fall
I'm spinning and I can't stop
I lose myself and I'm not, not the same
When we're in the free fall
