We Fall Down

[ASTR](#)

[Verse 1]
All of my dreams been crushed before
I've been swallowed, we fall down
All of my love's been lost before
I've been stomped into the ground

[Pre-Chorus]
I'm a gross bitch, I don't fake shit
I can have this, On my way to nowhere
I'mma cool kid, I'mma fool this
Inhabition, On my way to nowhere

[Chorus]
We fall down, come elate me
Come elate me, we fall down
We fall down, come elate me
Come elate me, we fall down

[Verse 2]
All of my skin's been shed before
I've been bled out in the crowd
What the hell am I waiting for
Paved my troubles in the ground

[Pre-Chorus & Chorus]

[Verse 3]
We will follow in the way
Follow in the way
We all rattle in the same...
Rattle in the same way
