

Lights Down Low

MAX

Heaven only knows where you've been
But I don't really need to know
I know where you're gonna go
On my heart, where you're resting your head
And you just look so beautiful
It's like you were an angel Can I stop the flow of time?
Can I swim in your divine?
Cause I don't think I'd ever leave this place Oh, turn the lights turn the lights down low
Yeah, now I'm feeling you breathing slow
'Cause, baby, we're just reckless kids
Trying to find an island in the flood
And Ooh oh
Just turn the lights, turn the lights
Down low oh.
Ooh oh
Under heavy skies in the rain
You're dancing
In your bare feet
Just like we're in a movie
Grab my hand and we're chasing the train I catch you looking back at me
Running through a cloud of steam
Can I stop the flow of time
Can I swim in your divine
Cos I don't I think I'd ever
Leave this place
Ooh oh
Turn the lights, turn the lights
Down low
Yeah
Now I'm feeling you, breathing slow
Cause baby
We're just reckless kids trying to find an island in the flood
Ooh oh
Turn the lights, turn the lights
Down low
And I would give you everything baby Can you feel this energy take it
You can have the best me baby
And I would give you anything
Can you feel this energy take it
You can have the best of me baby.
Ooh oh Turn the lights, turn the lights
Down low

Yeah
Now I'm feeling you, breathing slow
Ooh oh
Turn the lights, turn the lights
Down low
Yeah
Now I'm feeling you, breathing slow
Cause baby we're just reckless kids
Trying to find an island in the flood
Ooh oh
Just turn the lights, turn the lights
Down low oh.
Ooh oh
Turn the lights down low
Ooh oh.
