

Leave Me Be

Didrik Thulin

[Verse 1]

Leave me be
And tell me it could never be
The two of us
If only I could make you mine

[Pre-Chorus]

Oh, you
Have been holding back too long
So long, so long
Oh, you
Have been holding back too long

[Chorus]

Don't you know that you're shining like a distant star?
I wanna go with you baby, but it's way too far

[Verse 2]

By the time
I get to you, will you still be around
Or gone?
I guess I should be staying home 'cause

[Pre-Chorus]

You
Have been holding back too long
So long, so long
Oh, you
Have been holding back too long

[Chorus]

Don't you know that you're shining like a distant star?
I wanna go with you baby, but it's way too far

[Verse 3]

Make up your mind now
I'm stuck in the thought of you
Make up your mind now
I'm stuck in the thought of you

[Chorus]

Don't you know that you're shining like a distant star?
I wanna go with you baby, but it's way too far

[Pre-Chorus]

Have been holding back too long
So long, so long
Oh, you
Have been holding back too long

Have been holding back too long
