

My Neck of the Woods

Upchurch

[Chorus]

Dually kickin' up dust on a one lane road
Joe Diffie tunes hummin' out the radio
And the night so young as we are right now
Sittin' frozen in time on the edge of town
The water tower says the same thing
John Deere Green with the same names
A little faded but it still looks good
In my neck of the woods, neck of the woods
My neck of the woods (my neck of the woods)
In my neck of the woods

[Verse 1]

There's stop signs that I ran through like Richard Petty at Daytona
Black marks where I slammed the brakes, where that blacktop first had meat on it
Doing 75 in a 35 with a spray painted 3 off on the side
Jammin' out to that cassette tape, yellin' country boys we can survive
We all wanted to be Duke boys, lookin' for a Jeep with Daisy in it
Barefoot bandit since day one, plenty underpasses with a past in it
Them rope swings ain't been used in ten years and that's no lie
But that swimmin' hole still look ice cold and this place ain't aged a day in time

[Chorus]

Dually kickin' up dust on a one lane road
Joe Diffie tunes hummin' out the radio
And the night so young as we are right now
Sittin' frozen in time on the edge of town
The water tower says the same thing
John Deere Green with the same names
A little faded but it still looks good
In my neck of the woods, neck of the woods
My neck of the woods (my neck of the woods)
In my neck of the woods

[Verse 2]

If I die you can see the artwork on my skin that tells the life I lived
See the marks I left through all these songs I wrote when I'sa kid
And look back at the pictures of these sold out shows across the states
When I put these boots up, yeah, I've danced across a couple dusty stages
And I look back at the town and play a record from like 30 back

Play Rollin' Stoned a couple times and still roll up a joint so fat
I'll be rockin' and rollin' in a rocking chair made of wood
Lookin' at the water tower road with the hill right by the sun come

[Chorus]

Dually kickin' up dust on a one lane road
Joe Diffie tunes hummin' out the radio
And the night so young as we are right now
Sittin' frozen in time on the edge of town
The water tower says the same thing
John Deere Green with the same names
A little faded but it still looks good
In my neck of the woods, neck of the woods
My neck of the woods (my neck of the woods)
In my neck of the woods

[Bridge]

My neck of the woods, my end of the road
That football field that we practiced on
Had that parkin' lot hoppin' on a Friday night at Sonic
'Til the neon lights were down and a field party started

[Outro]

In my neck of the woods
In my neck of the woods
In my neck of the woods
My neck of the woods (my neck of the woods)
