

Nothing Else

Matthew West

[Verse 1]

I tried money
I got as much as I could and I went to the store
And I bought it all
But it wasn't enough 'cause I wanted some more
But my house was full
So I bought a bigger house and filled it up
And there I was with all that stuff
And empty

[Chorus]

Nothing else can take the place of You, it's true
Nothing else can take the place of You, I know it's true

[Verse 2]

Still I try friendship
I called everyone I knew
And invited them over for a party
They ate all the free food
And they told me how much they loved me
But when the food was gone
My friends were gone
And there I was all alone
And empty

[Chorus]

'Cause nothing else can take the place of You, nothing else
Oh nothing else can take the place of You, I know it's true

[Bridge]

So take the place
The place of You
And fill this space
The way You do
'Cause I'm tired of searching
Those days are through
So take the place
It's made for You
Nothing in the world will take the place
Nothing in the world will take the place

Nothing in the world will take the place of You

[Bridge 2]

Not friends or money or alcohol

None of these things, believe me

You can try them all

Not status

Not success

I know none of these things will ever bring true happiness

[Chorus]

Nothing else can take the place of You, nothing else

Nothing else can take the place of You, Yes I know

Nothing else can take the place of You, the place of you

Nothing else can take the place of You
