

# Lonesome

SHAED

[Verse 1]

I could tell you all about her  
And what she did for me  
I was swimming in the darkness  
Till she set me free

[Pre-Chorus 1]

She opened up my heart  
To a whole new love  
I never knew was there  
When it fell apart  
And she left my arms  
I was so unprepared

[Chorus]

What if I do  
What if I don't  
What if I'm feeling lonesome without you  
What if I lose  
Where would I go  
What am I feeling lonesome without you

[Verse 2]

I could tell you all about him  
The way he touched my face  
I'd be throwing such a tantrum  
But he could ease my pain

[Pre-Chorus 1]

He opened up my heart  
To a whole new love  
I never knew was there  
When it fell apart  
And he left my arms  
I was so unprepared

[Chorus]

What if I do  
What if I don't  
What if I'm feeling lonesome without you

What if I lose  
Where would I go  
Why am I feeling lonesome without you

[Bridge]

Gonna beg you to stay  
Cause I know that you're the one  
Don't you take that away  
I know that you wanna quit  
But I'm not ready to let go  
Gonna bend til I break

[Chorus]

What if I do  
What if I don't  
What if I'm feeling lonesome without you  
What if I lose  
Where would I go  
Why am I feeling lonesome without you

[Outro]

What if I do  
What if I don't  
What if I'm feeling lonesome without you  
What if I lose  
Where would I go  
Why am I feeling lonesome without you  
So lonesome without you  
So lonesome without you  
SO lonesome, so lonesome  
So lonesome without you  
No
