

# Shoulder

Enon

In the flesh  
You got me high  
You got me high  
I feel your heartbeat still all night  
That boy  
You want the one thing  
You're a beautiful panther  
Inside your bedroom  
Outside we killed  
I fell upside down when you crossed me

How are you  
I'm feeling fine  
Except you got me high that I can't sleep at night  
You want the one thing  
You're a beautiful slider  
You pitch your fastball straight from your shoulder  
You want the one thing  
You're a beautiful panther  
No one can strike me like you do  
So do I do to you
