Coming Down

The Weeknd

I got somethin' to tell you But don't know how I'ma say it I guess that I can only say one thing:

Girl, I been bad again

Girl, I been bad againCause with this money comes problems

And with these problems come solutions

And I use 'em

When I'm faded I forget

Forget what you mean to meHope you know what you mean to me

Pick

Up

Your phone

The party's finished and I want you to know

I'm

All alone

I'm feeling everything before I got up

I always want you when I'm coming down I always want you when I'm coming down

I always want you when I'm coming downI always want you when I'm coming down I always want you when I'm coming downI always want you when I'm coming down I always want you when I'm coming down I always want you when I'm coming down

Poppin' again

I tried to quit again

I'm always tight wit' somethin I begin

That's why my niggas got me to the end

Supply what I take, I take what I spend babyI ain't lyin' to nobody but me

And you

And me

But you especially

Pick

Up

Your phone

The party's finished and I want you to knowI'm

All alone

I'm feeling everything before I got up

I always want you when I'm coming down

I always want you when I'm coming downI always want you when I'm coming down

Pick up your phone I'm a All alone

I always want you when I'm coming down I always want you when I'm coming down
