

# In Your Wake (feat. Jeza)

## Said The Sky & Illenium

Losing ourselves  
And were barely standing  
Warm body surround  
If there's no soft landing  
Let me be forgotten  
Just leave me in your wake  
I never know the bottom of my heart  
I never read a caution from the start  
Now we may forgotten the truth to start again  
Let me be forgotten  
Leave me in your wake  
In your wake  
Confusions surround  
There's no understanding  
When we're feeling down  
We're living stranded  
I never know the bottom of my heart  
I never read a caution from the start  
Now we may forgotten the truth to start again  
I never know the bottom of my heart  
I never read a caution from the start  
Now we may forgotten the truth to start again  
Let me be forgotten  
Leave me in your wake  
In your wake  
Let me be forgotten  
Just leave me in your wake  
I never know the bottom of my heart  
I never read a caution from the start  
Now we may forgotten the truth to start again
