

# Ladi Dadi (feat. Wynter Gordon)

Steve Aoki

Ooh na na na, dim the lights  
So you can't see me  
Close your mouth, don't speak  
Just feel me Closer we become  
Together we'll fold up  
And we'll want this night, this night  
We give ourselves one night The moon is set, the food is eaten  
The time is right for our love misleading A little bit of talk, a little bit of pleasure  
A little bit of making out and then we work it out  
A little smoky smoke, tell me a dirty joke  
Up on your roof, up on your roof  
And we don't need nobody, let's have a little party  
Just us two, just us two  
And we don't need nobody, 'cause we go ladi dadi  
Just us two, me and you, me and you Here, a kiss and I'll smile, so softly  
We're just friends, but I like you slightly  
We won't cross the line, we'll go on a proper date sometime  
Just a boy and a girl, just us two in the world The moon is set, the food is eaten  
The time is right for our love misleading A little bit of talk, a little bit of pleasure  
A little bit of making out and then we work it out  
A little smoky smoke, tell me a dirty joke  
Up on your roof, up on your roof And we don't need nobody, let's have a little party  
Just us two, just us two  
And we don't need nobody, 'cause we go ladi dadi  
Just us two, me and you, me and you  
Take a walk with me  
And we'll go dancing in the rain  
And baby, we'll run under a tree  
I'll look at you, you'll look at me A little bit of talk, a little bit of pleasure  
A little bit of making out and then we work it out  
A little smoky smoke, tell me a dirty joke  
Up on your roof, up on your roof And we don't need nobody, let's have a little party  
Just us two, just us two  
And we don't need nobody, 'cause we go ladi dadi  
Just us two, me and you, me and you
