

Mind Games

[HAEVN](#)

[Verse 1]

Bruises you made, we're fading away
Like footprints out in the snow
Quietness and freedom are killed in the flesh
But one of your destined calls

[Chorus]

I let your mind games in
Let your mind games in
Let your mind games in again
I let your mind games in
Let your mind games in
Let your mind games win again

[Verse 2]

Wrote that you take when I'm caught in your stream
You're cold when I'm in your plate
The rule that you break is hope and relief
Warmth when I am away
(If I let her go)
You've come for more
(But if I let her in)
You take control

[Chorus]

I let your mind games in
Let your mind games in
Let your mind games in again
I let your mind games in
Let your mind games in
Let your mind games win again

[Post-Chorus]

Life keeps on running through my veins
Life keeps on running through my veins
Life keeps on running through my veins

[Bridge]

Game on
I am ready for it all

Game on
'Cause when I'm up, I like to fall

[Chorus]
I let your mind games in
Let your mind games in
Let your mind games in again
I let your mind games in
Let your mind games in
Let your mind games win again

[Post-Chorus]
Life keeps on running through my veins
Life keeps on running through my veins
Life keeps on running through my veins

[Chorus]
I let your mind games in
Let your mind games in
Let your mind games win again
