All Me (feat. Keyshia Cole)

Kehlani

When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right thereNever had a moment
Never have I ever questioned ya, questioned ya
You already know that
I ain't never stressed with ya, stressed with ya
Love me and you own that, uh
That's why I'm so impressed with ya, blessed with ya
If you haven't noticed, I am at my best with ya, best with ya, yeahYeah, you know you're my heart, yeah, they know I'm about you
I hate when we're apart, 'cause I love me around you
Embraced all my flaws, when you didn't have too
Stay holdin' me down, even when I'm not around
When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right there
When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right thereWe're going on a movement
Movement all by myself
But lovin haven't been that, yeah
Every minute that we share
I been in my bank with you (Bank with you)
They know I ain't playin 'bout you (Playin' 'bout you)
I been eatin' right and sleepin' through the night
For the first time in a long time
That's why you know you're my heart, yeah,
And you know I'm about you (I'm so about you)
I hate when we're apart,
'Cause I love me around you (Can't be without you)
Embraced all my flaws, when you didn't have too
Stay holdin' me down, even when I'm not around
When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right there
When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right thereAll me, all me, all me
When you see him, yeah, you see all me
When you walk by, that walk so me, that talk so me, yeah, all, all, me
All me, all me, all me
When you see him, yeah, you see all me

When you walk by, that walk so me, that talk so me, that's so meWhen you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right there
When you see him, know that, that's all me
When you see him, know that, that's all me
When you see him, know that, that's all me right there
